Di attrezzi antiscintilla in rame beta di Beta Strumenti S.p.A. non devono essere usati a contatto
o in presenza di scintille o con apparecchiature che funzionano con scintille.
L'ustione può reagire con il rame dello strumento per formare un acido esplosivo.
Beta spark-proof tools cannot be used in contact with acetylene or with devices that function
on acetylene.
Acetylene can react with the copper of the tool and form copper acetylide, a powerful
and very dangerous explosive.
